

One day Jamnjoey was walking down the streets with his babysitter when he saw a poster of a bubba land boat race

He was looking at what it said beneath the poster," *the prize is for you to give 50 thousand dollars*" but Jamnjoey was not smart enough to understand what it said in the cursive so he went to the mayor and said yes

The next day Jamnjoey brought his cool boat to his lawn of his beach house.

He was trying to drag the boat out of the grass but it was no use so he brought a crane to do the job.

He brought the boat into the water

A week went and Jamnjoey did not practice and today was the of the race. Jamnjoey brought his boat to the racing grounds. The race started . Jamnjoey saw his only two competitors Balbua the owner

of balbua industries and Jamayajam a world famous boat racer .

Jamnjoey was first even though he didn't know how to control it. Just a split second later Jamayajam used her boat to do a 360 degree backflip over his boat and Balbua passed him from the other side. Now Jamnjoey was third. Jamnjoey pressed a bunch of random buttons and his boat stopped. Then he tried pressing a button and then he pulled the steering back really far, then he pressed the escalator really hard. His speed was increasing by the second. After ten seconds the boat was at a speed of 397 mph. His boat's engine was firing. He pressed another button and his boat did two 360 degrees backflip and he passed Balbua. Right in front of him was Jamayajam. Ten seconds later Jamnjoey was at a firing speed of 450 mph and right next to him was Jamayajam the finish line was 30 feet away when Jamayajam tried crashing into Jamnjoey. They crashed. Jamnjoey flung

into the air and he crashed 2 centimeters in front of the finish line he won the race

Then when Jamnjoey went to the finish line the mayor asked him for the 50 thousand dollars he was supposed to donate. Jamnjoey said he was not going to give 50,000 dollars

and people started throwing tomatoes at Jamnjoey

This was the worst day Jamnjoey ever had
